MotorGuide Plastic Pulley No Longer Available

Models Affected

Tour Edition with older style foot pedal assemblies with staggered plastic pulley design

Description

Plastic pulley part number MPM12101T is NLA.

Correction Instructions

The plastic pulleys have been made NLA due to changes in the foot pedal base. The new stainless pulleys do not have the same dimensions and will not fit the old style base. There is also a clearance issue with the new base and the old foot pedal top. Kit part number M879320A1 has been created to allow the dealer to upgrade foot pedal assemblies with plastic pulleys.
